

## Australian Ambassador visits Mojkovac

The Australian Ambassador HE Dr Helena Studdert visited Mojkovac on Thursday 30 May. The Ambassador met with the Mayor of Mojkovac, Mr Dejan Medojevic to discuss the local region and potential investment. Dr Studdert and the Mayor were then given a guided tour by General Manager of North Mining (NM), Ms Milijanka Maras of the company's exploration sites in the Mojkovac municipality. The tour included the Brskovo open-pit and other drilling sites. NM staff briefed the Ambassador on the technical aspects of the project and details of ongoing exploratory work. The 'Monty Project' is a significant Zinc-Silver-Copper deposit that will provide a significant boost to the Montenegrin economy once developed. NM is a wholly owned subsidiary of Australian mining company Balamara Resources Ltd.
